

## Technical Sales Engineer

**Easy! Software**, headquartered in Columbus, Ohio with overseas development teams, is focusing on the software Application Lifecycle Management (ALM) and Software Configuration Management (SCM) products. Our products provide solutions for project development teams for project management, workflow management, change management, issue tracking, source code and document version control, peer review, and functional, regression, load & stress testing.

We are expanding our operations and are looking for a Technical Sales Engineer for pre-sale technical support. You will be a part of our sales team for technical inquiries and product demonstrations. We offer excellent opportunities for you to grow your career with us.

Responsibilities include:

- Conduct product demo and answer related technical questions.
- Support prospect customer trials.
- Maintain demo and download servers.
- Translate customers' needs to requirements for future product enhancement considerations.

Candidate shall have the following qualifications:

- In-depth knowledge of Unix and Windows.
- ALM or SCM knowledge/experience is a must.
- Fluent in German, Japanese, Korean or Chinese.
- Excellent writing, communication, and presentation skills.
- Strong work ethic.
- Some travel may be required.

Compensation & Benefits:

- ✓ Base salary, commission and bonus.
- ✓ Company medical insurance.
- ✓ Stock options,
